Offshore Wind in the Baltic Sea: Legal and Policy Perspectives on a Regional Meshed Grid

Friday 25 November | 8:45 - 16:30

Magazinstraße 15-16 | 10179 Berlin

Hosted by:

IKEM

Institut für Klimaschutz, Energie und Mobilität

Offshore Wind in the Baltic Sea: Legal and Policy Perspectives on a Regional Meshed Grid

8:30 - 9:00 Registration and coffee

9:00 - 9:30 Introduction to the Baltic InteGrid
Anika Nicolaas Ponder | IKEM
Francesca Klein | IKEM

9:30 -10:15 The EU Strategy for the Baltic Sea Region:
Interconnecting Energy Markets
Dr. Olga Bogdanova | Ministry of Economics of the Republic of Latvia | Policy Area Energy of the EU Strategy for the Baltic Sea Region

10:15-10:30 Coffee break

10:30-11:15 From Planning to Operating: The Legal and Regulatory Road for
Offshore Wind Farm Development
Manfred Dittmer | Head of Regulatory Affairs | DONG Energy (tbc)

11:15- 12:00 The EEG 2017: Germany's New Renewable Energy Act and
Impacts on Offshore Wind
Andreas Wagner | Director | German Offshore Wind Energy Foundation

12:00-13:00 Lunch

13:00-13:45 Offshore Wind in an Integrated Regional Market:
A TSO's Perspective on the Policy and Regulatory Landscape
PSE AG | TSO - Poland (tbc)

13:45-14:30 Meshed Offshore Grids:
Legal and Regulatory Perspectives from the North Sea
Damien Abdoelkariem | TenneT TSO B.V. | PROMOTION

14:30-15:00 Coffee break

15:00-15:45 Lightning Round:
Offshore Wind and Interconnectors: National Perspectives

- Denmark: *Prof Birgitte Egelund Olsen | Aarhus University*
- Sweden: *Pierre Ståhl | Energikontorsyndost*
- Finland: *Kanerva Sunila | Aalto University*
- Poland: *Dr. Maciej M. Sokółowski | FNEZ*

15:45-16:30 Discussion panel with all speakers:
Towards an Integrated Offshore Grid in the Baltic Sea?

16:30 Conclusion of the seminar

Baltic
InteGrid

About the conference

The Baltic InteGrid's first policy conference brings together international, interdisciplinary stakeholders from the areas of industry, government, and civil society in the Baltic Sea Region to reflect on the cross-border development potential for an integrated offshore grid. As a basis for the project's reflections, experts from different sectors and countries will address the political and legal landscape on an EU and national level in regard to offshore grid development, ending with an interactive panel discussion.

The conference aims to further the legal, regulatory and policy discussions around a meshed offshore grid in the Baltic Sea region. By uniting international, interdisciplinary stakeholders on a common platform, the conference ensures that practical expertise continues to shape the research of the Baltic InteGrid.
