## INNOVATION-DRAFT, OFFSHORE WIND ENERGY TEST SITE

Title: \_\_\_\_\_

**Research Area** (please state the topic / research area (e.g. operator concepts, environmental monitoring, surveying etc...):

**Description** (please sketch out your idea broadly, incl. innovation potential, necessary preliminary work, current state of development etc...):

**Link to Test-Site** (briefly state why the National Offshore Wind Energy Test Site would be a good fit to test your innovation and what sort of infrastructure / conditions you would require on site):

**Timing** (please give an estimation on timing, how long your idea would need testing, if it is a permanent installation, tested in intervals or if there is a seasonal component involved):

**Required services and framework conditions** (please state, what sort of services or infrastructure you would require, e.g. vessel time / transportation, turbine access etc...):
