place, date

Expression of interest

Dear Dr. Wehkamp,

we are pleased that the project "Nationales Testfeld Offshore-Windenergie" (NaT-Off) is funded by the Federal Ministry of Economic Affairs and Climate Action and that the German Offshore Wind Energy Foundation has been commissioned with the coordination of the project.

We welcome the implementation of a test site for offshore wind energy. The offshore test site has great potential for the further development of the industry. For example, the test field can help to further reduce costs, increase the safety, minimize environmental impacts, facilitate multi-use approaches, or increase system efficiency in combination with storage technologies.

We are interested in

(Please add here the topics that are relevant for your company. Other topics can be deleted. This also applies to the rest of the letter)

- testing wind turbines,
- testing foundations and/or turbine components
- operating operate the test site or participating in an operator consortium,
- test novel installation methods,
- test innovative service concepts, and/or
- test storage technologies

Yours sincerely
